A COMPLETE FOURNIER FORGERY ALBUM. N° 183, containing approximately 3.000 items comprising unused and used singles, multiples and many surcharges, postmarks and cancels, appears to be complete 'Album De Fac-Similés Edité Par l'Union Philatélique de Genève'.

When Fournier died in 1917, one of his employees, Charles Hirschburger, unsuccessfully tried to continue the business.

When Hirschburger died in 1927, l'Union Philatélique de Genève purchased the Fournier stock, which weighed over 800 pounds, from Hirschburger's widow. The Union then marked the forgeries with 'FAUX' handstamps on the front and/or 'Facsimile' on the reverse, and employed students from the Geneva School of Arts and Crafts to mount representative selections of the forgeries in 480 albums.

Whatever was not placed into one of the books was burned to ashes.

Because Fournier made forgeries from such a wide variety of countries, many of the 480 books have either been divided into country references or have had many items removed.

The following 105 lots from the peg album pages have been split into country sections as made. A scarce opportunity not to be missed adding a unique element to any country collection.
